1.10 lbs

RING LOCK SCAFFOLDING

Ring Lock Scaffolding is a highly versatile and durable modular scaffolding system widely used in construction, industrial maintenance, and large-scale projects. Designed with efficiency and safety in mind, this system features prefabricated components, including verticals, horizontals, braces, base collars, and ladders, making it ideal for both simple and complex scaffolding needs.

Scan to watch our video tour of a custom scaffold tower

ADVANTAGES OF RING LOCK

- **Quick Assembly**
Secure connections are achieved with a locking pin and rosette, allowing fast setup and disassembly.
- **High Durability**
Made from galvanized steel, components resist corrosion and withstand harsh conditions.
- **Adaptability**
Suitable for circular, curved, and irregular structures, as well as straight-line elevations.
- **Space Efficiency**
Minimal components reduce storage and transport needs.

GUARDRAILS

SIZE	SKU	WT.
2'	GR2	1.54 lbs
3'	GR3	2.24 lbs

Fast Quote, High Quality

WE MAKE IT EASY TO GET A CUSTOM QUOTE

Simply fill out our contact form online, call or email us. We will verify your scaffold order details, ensuring you receive the right scaffold height, platform length, and accessories for your project. For accurate shipping costs, provide your delivery zip code, and we'll include shipping charges and tax (if applicable) in your final quote.
